2011 Player Guide

Diamondback Volleyball Club Mission Statement

CLUB MISSION

The Diamondback Volleyball Club is dedicated to promoting the sport of volleyball and volleyball excellence in Las Cruces and the surrounding geographical area.

CLUB GOALS

Developing interest in the game and teaching fundamental skills to our younger players is one of our primary goals.

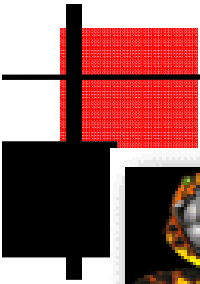

Our second goal is to give the serious player with a sincere desire to become varsity players in high school or who have their sights set on a college career the coaching and competitive exposure they will need to achieve excellence.

The Diamondback Volleyball Club has an excellent record of producing players who have gone on to college teams. It is through club volleyball that most players who eventually play in college have the opportunity to be seen by college coaches. Travel to national tournaments, which is a major part of our club activities, provides this type of exposure.

BENEFITS
